PLANNING AND PREPARATION

I discussed the lift plan with the dogman and other persons involved in the work party	
I verified that the crane was in a serviceable state to conduct the required lift().	
I participated in discussion and agreed on the method of communication to be used during the lift.	
I carried out a prestart check on the crane before operation.	

DURING THE LIFT

I implemented control measures as per the lift plan or risk assessment to eliminate or minimise the risk of hazards.	
I completed a safe lift, move, unload or placement of the load that followed the lift plan and didn't encroach on safety zones	
I operated the crane in a safe manner meeting manufacturer's instructions and did not exceed the crane load-limits.	
I maintained a continual communication link with the dogman while operating the crane.	

POST LIFT ACTIONS

I parked the crane in accordance with the crane manufacturer's instructions and company procedures.	
I stored equipment associated with the crane in accordance with equipment manufacturer's instructions and company procedures.
