Worker	Assessor
--------	----------

PLANNING AND PREPARATION

I conducted an inspection of the lifting equipment to be used prior to the lift to ensure its in sound condition, has certification if required and is marked with a SWL.		
I conducted a risk assessment prior to the lift to ensure all specific and potential hazards were eliminated or minimized.		
I calculated the weights of the load to be lifted using recognised methods.		
I confirmed the lift plan with all of the people involved with the lift ensuring it was in line with industry best practice and company procedures.		

DURING THE LIFT

I controlled the load during the lift in line with industry best practice and company procedures.		
I communicated appropriately during the lift ensuring any risks were minimized.		
I verified tag lines were in place where required and free from loops and tangles		

POST LIFT ACTIONS

I returned all lifting gear to its correct storage location.
